

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million. The number of people who are malnourished has increased from 1.2 billion to 1.5 billion. The number of people who are obese has increased from 100 million to 300 million.

The World Bank has estimated that the number of people who are undernourished in the world will increase from 800 million in 1990 to 1.2 billion in 2020. The number of people who are malnourished will increase from 1.5 billion in 1990 to 2.2 billion in 2020. The number of people who are obese will increase from 300 million in 1990 to 600 million in 2020.

The World Bank has also estimated that the number of people who are undernourished in the world will increase from 800 million in 1990 to 1.2 billion in 2020. FOREWORD

FIVE HUNDRED THOUSAND DOLLARS IS SPENT EVERY SEASON FOR PLAY ROYALTIES BY THE STOCK COMPANIES OF THE UNITED STATES. OF THIS SUM SEVENTY PER CENT. COMES TO THE AMERICAN PLAY CO. AS THE EXCLUSIVE REPRESENTATIVE OF MANAGERS AND AUTHORS. IS IT NOT WORTH YOUR WHILE TO BE IN ACTIVE BUSINESS RELATIONS WITH SUCH AN ORGANIZATION?

THE AMERICAN PLAY COMPANY presents herewith its first annual catalogue of plays with a record of their original casts and productions, representing what it knows to be the pick and flower of dramatic material, now available for stock production in the United States.

THE AMERICAN PLAY COMPANY confidently believes the information contained in this catalogue will be of extreme value to every stock manager in the United States and it is happy to present this book gratis, despite the hundreds of dollars and material amount of time and research that have gone into its making.

THE AMERICAN PLAY COMPANY represents for stock plays the combined forces of the two best known and most successful dramatic agents in America, Miss Elisabeth Marbury, the oldest established play agent in the world, and Messrs. Selwyn and Co., who have achieved wonderful success in the last few years. The two offices combined control for stock the plays, almost without exception, of every prominent dramatic author in the world.

THE AMERICAN PLAY COMPANY will be glad at any time to arrange with stock managers for a season of five, ten, fifteen, twenty or thirty weeks of stock plays, and by reason of its absolute control of terms and conditions of many of the greatest successes, it is enabled to make especially attractive prices where plays are, so to speak, contracted for in bulk.

THE AMERICAN PLAY COMPANY is in the best possible position to undertake to represent out of town stock managers in New York, but it can undertake this work only in a limited number of instances. Where stock managers wish to employ The American Play Company as its exclusive agent to supply plays for stock, it will enter into such an agency arrangement under special conditions and terms and provide the manager with an entire season's program of practically guaranteed successes.

THE AMERICAN PLAY COMPANY, among the many plays catalogued on the succeeding pages, represents works by the following distinguished American and foreign playwrights:

Paul Armstrong	Cosmo Gordon Lennox
Frances Hodgson Burnett	Robert Marshall
Hall Caine	Margaret Mayo
R. C. Carton	Arthur Wing Pinero
Haddon Chambers	Channing Pollock
Rachel Crothers	Paul Potter
Hubert Henry Davies	Victorien Sardou
Leo Ditrichstein	Bernard Shaw
Clyde Fitch	Alfred Sutro
Sydney Grundy	Evelyn Greenleaf Sutherland
Jerome K. Jerome	Augustus Thomas
Henry Arthur Jones	Mark Twain
Charles Klein	Eugene Walter

THE AMERICAN PLAY COMPANY'S suite of offices is located in the Knickerbocker Theatre Building, New York, and it will be happy to extend to any visiting manager these offices as his headquarters for the purpose of meeting authors and actors, receiving mail and to afford him the facilities of its telephone, telegraph, typewriting and stenographic services.

THE AMERICAN PLAY COMPANY will from time to time, as additional plays become available for stock, through its medium add supplements to this catalogue by additional leaves, thus preserving it as a complete catalogue of current stock plays, with data of original casts and productions, that is extremely valuable to the stock managers, not only as a record but as a useful guide in casting.

THE ADVENTURES OF LADY URSULA

By
ANTHONY HOPE AND EDWARD E. ROSE.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995. The public sector has also become an important employer of women, with 55% of public sector employees being women in 1995, compared with 45% in 1980.

There are a number of reasons why the public sector has become an important employer of women. One reason is that the public sector has a high proportion of jobs that are traditionally considered to be 'female' jobs, such as teaching, nursing, and social work. Another reason is that the public sector has a high proportion of jobs that are part-time or flexible, which are more likely to be taken up by women. A third reason is that the public sector has a high proportion of jobs that are in the service sector, which is also a sector that is traditionally dominated by women.

The public sector has also become an important employer of women because of the increasing demand for public services. As the population of the UK has increased, so has the demand for public services, such as health care, education, and social care. This has led to an increase in the number of people employed in the public sector, and has also led to an increase in the number of women employed in the public sector.

The public sector has also become an important employer of women because of the increasing demand for public services. As the population of the UK has increased, so has the demand for public services, such as health care, education, and social care. This has led to an increase in the number of people employed in the public sector, and has also led to an increase in the number of women employed in the public sector.

The public sector has also become an important employer of women because of the increasing demand for public services.
